We have audited the accompanying statement of financial condition of OpenBondX, LLC as of December 31, 2017, the related statements of operation, changes in members' equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the year then ended, and the related notes and schedules (collectively referred to as the financial statements). Basis for Opinion

These financial statements are the responsibility of OpenBondX, LLC's management. Our responsibility is to express an opinion on OpenBondX, LLC's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to OpenBondX, LLC in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Note 2 - Summary of Significant Accounting Policies

Concentration of Credit Risks

The Company maintains its cash in bank deposit accounts at high quality financial institutions. The balances, at times, may exceed the Federal Deposit Insurance Corporation's ("the FDIC") limit of \$250,000. At December 31, 2017, the Company exceeded the federally insured limit by \$341,862.

Cash and cash equivalents represent highly liquid investments, with original maturities of less than three months, that are not held for sale in the ordinary course of business.

Use of Estimates

The preparation of the accompanying financial statement, in conformity with U.S. generally accepted accounting principles, requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosures about contingent assets and liabilities, and the accompanying notes. These estimates and assumptions are based on management's best estimates and judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including current economic environment, which management believes to be reasonable under the circumstances. Management adjusts such estimates and assumptions when facts and circumstances dictate.

Note 2 - Summary of Significant Accounting Policies (continued)

Income Taxes

The company is organized as a Limited Liability Company. As such, all Company income and losses are passed through to the members.

Clearing Deposit

The Company is an introducing broker and clears transactions with and for customers on a fully disclosed basis with Wedbush Securities, Inc.

The Company terminated its prior clearing agreement with SG Americas Securities, LLC (SGAS), a wholly owned subsidiary of Société Générale and SGAS returned clearing deposit to Company in amount of \$508,334.

Furniture, Fixture and Equipment

Furniture, fixture and equipment are carried at cost, less accumulated depreciation and amortization. Depreciation is computed on a straight-line basis using the estimated useful lives of the assets. Furniture, fixture and equipment consist of computer hardware, office equipment, and furniture and fixtures, which are depreciated over three to seven years.

Organization Costs

Organizations costs are carried at cost and are amortized over ten years.

Note 3 - Fair Value Measurements

The Company's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with ASC 820-10, *Fair Value Measurement*. Fair value is defined as the price that would be received to sell as asset or would be paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measure date.

ASC 820-10 established a three-level hierarchy for fair value measurements that distinguishes between market participant assumptions developed based on market data obtained from sources independent of the reporting entity (observable inputs) and the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The hierarchy level assigned to each security held by the Company is based on the assessment of the transparency and reliability of the inputs used in the valuation of such security at the measurement date. The three hierarchy levels are defined as follows:

Note 3 - Fair Value Measurements (Continued)

- Level 1 Valuations based on unadjusted quoted market prices in active markets for identical securities.
- Level 2 Valuations based on observable inputs (other than Level 1 prices), such as quoted prices for similar assets at the measurement date; quoted prices in markets that are not active; or other inputs that are observable, either directly or indirectly.
- Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement, and involve management judgment

When available the Company measures fair value using level 1 inputs because they generally provide the most reliable evidence of fair value.

Note 4 - Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1 (SEC Rule 15c3-1), which requires the maintenance of a minimum "net capital" equivalent to \$100,000, or 6 2/3% of the "aggregate indebtedness," whichever is greater, as these terms are defined.
